

A gas transmitter for use with directly or remotely mounted toxic and Oxygen gas sensors

Sensepoint XCD RTD

Benefits

- Increased personnel safety
- Compliance with Health and Safety legislation
- Fulfilment of duty of care
- Reduced insurance premiums

Flexibility

- Tri-colour display indicates status at a glance
- Transmitter can be mounted in easy to access area or highly visible location
- Sensor can be mounted directly or up to 30 metres (100 feet) from transmitter
- Detects a wide range of toxic gases
- Generic 4-20mA input device option

Reliable Detection

- Compatible with Honeywell Analytics' proven Sensepoint toxic and Oxygen gas sensors
- Surecell™ technology ensures performance at extremes of temperature and humidity
- Long-life sensors
- IP66/67 rated for use in harsh environments

Easy to Use

- Easy to read tri-colour backlit display with digits, bar graph and icons
- Fully configurable via non-intrusive magnetic switches
- Selectable sink or source 4-20mA output
- Auto-inhibit during maintenance prevents false alarms

Cost Effective

- Sensepoint XCD common transmitter platform
- Reduces training costs
- Reduces spares and stock costs
- Non-intrusive, one-man operation reduces cost of maintenance
- Plug-in sensor cartridge replacement

Applications

- Industrial manufacturing facilities
- Power plants
- Waste water facilities
- Utilities
- Food and beverage production
- Refineries and chemical plants
- Onshore oil and gas terminals
- Production platforms
- Exploration and drilling

Sensepoint XCD RTD enables users to comply with legislation, increase safety and reduce insurance premiums and maintenance costs when protecting personnel from toxic gas releases. It provides proven, reliable toxic and Oxygen gas detection, an easy to read status display and a common platform.

Sensepoint XCD RTD (Remote Toxic Detector) has been specifically designed for use with the Honeywell Analytics' range of Sensepoint toxic and Oxygen sensors. This configuration is ideal for a wide range of toxic and Oxygen gas detection applications. The sensor can be mounted up to 30 metres (100 feet) away from the transmitter in areas that are difficult to access. The transmitter can be mounted at a suitable location away from this area where it is easy to access, view its display and interact with via the user interface.

Sensepoint toxic and Oxygen sensors offer a wide variety of gases and measuring ranges. The sensor can be mounted directly to the transmitter as well as remotely. Sensepoint XCD RTD can be used as a common platform for all toxic and Oxygen gas detection, reducing spares requirements. The Sensepoint sensor design includes an IS portion with a removable sensor cartridge, eliminating the need for a hot work permit when changing the sensor cartridge. The sensor has an IP67 rating for use in the harshest conditions.

The transmitter's tri-colour backlit LCD clearly indicates the unit's status at a glance, even from a distance. A steady green backlight indicates normal operation, flashing yellow indicates fault and flashing red indicates an alarm.

Outputs include 2 programmable alarm relays, 1 programmable fault relay as well as 4-20mA output (sink or source selectable).

The range, relay operation, alarm set points and electronic tag number of the detector can be adjusted using the transmitter's LCD and the non-intrusive magnetic switches. Outputs are automatically inhibited during adjustment thereby reducing the risk of false alarm at the control panel during maintenance.

Sensepoint XCD RTD Overview

The Sensepoint XCD RTD (Remote Toxic Detector) can be used with the Sensepoint range of toxic and Oxygen gas detectors. The sensors can be directly mounted to the M25 entry at the bottom of the transmitter, or remotely mounted to suitable junction boxes or duct mounting assemblies.

Typical installation of Sensepoint XCD RTD with remote Sensepoint toxic or Oxygen sensor

Typical installation of Sensepoint XCD RTD with local Sensepoint toxic or Oxygen sensor

Available Sensepoint Toxic Sensors

Gas and Range	Hydrogen Sulphide (H ₂ S) 20/50/100ppm	Carbon Monoxide (CO) 100/200/500ppm	Ammonia (NH ₃) 50/1000ppm	Chlorine (Cl ₂) 5/15ppm	Oxygen (O ₂) 25% V / V	Hydrogen (H ₂) 1000/10000ppm	Sulphur Dioxide (SO ₂) 15/50ppm	Nitric Oxide (NO) 100ppm	Nitrogen Dioxide (NO ₂) 10ppm
Operating Temp	-25 to +50°C	-20 to +50°C	-20 to +40°C	-20 to +50°C					
Warm-up Time		< 3 minutes		< 5 minutes		< 3 minutes		12 hours	1 hour

Notes

*= % of range (fsd) per year, **Over operating temperature range, ***= % of applied concentration

Ready, Steady, Go!

Sensepoint XCD RTD uses three instantly recognisable 'traffic light' colours to indicate its status. The large tri-colour backlit LCD flashes red to indicate an alarm, flashes yellow to indicate a fault and is steady green to indicate normal operation. This allows anyone in the area to clearly see at a glance the status of any detector. This can be particularly useful to identify detector status if the detector is located in a difficult to access area or if a number of detectors are located in the same area.

Installation

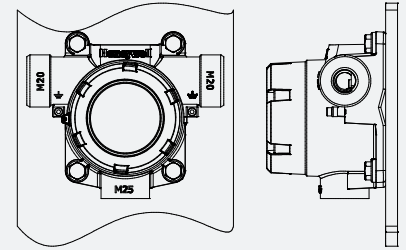

Mechanical

The Sensepoint XCD RTD transmitter has an integral mounting plate consisting of four mounting holes on the transmitter body. The transmitter may be fixed directly to a surface mounting, or to a horizontal or vertical pipe/structure, 40.0-80.0mm (1.6 to 3.1 inches) in diameter/cross section. The pipe mounting bracket accessory (optional accessory) may be used for this purpose.

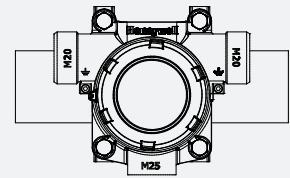

All dimensions in mm.
1" = 25.4mm

Installation Options

Wall mounted

Horizontal pipe mounted
(Using optional pipe mounting kit)

Vertical pipe mounted
(Using optional pipe mounting kit)

Vertical pipe mounted
(Using optional pipe mounting kit)

Typical installation of Sensepoint XCD RTD with remote
Sensepoint toxic or Oxygen sensor

Typical installation of Sensepoint XCD RTD with local
Sensepoint toxic or Oxygen sensor

Optional sunshade/deluge protection

Installation

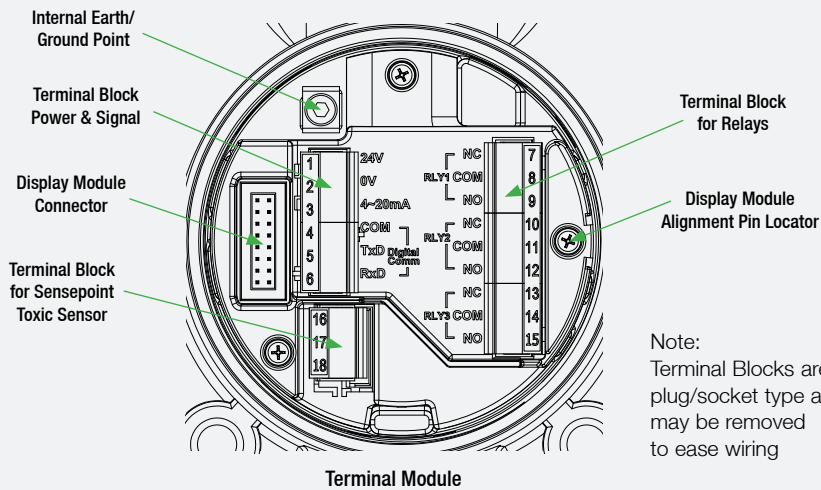

Electrical

Sensepoint XCD RTD is designed for use in potentially explosive atmospheres. As such, installation should follow national guidelines using suitable mechanically protected cables and glands (M20 and M25). Use 0.5mm² to 2.5mm² cross sectional area cable as needed to ensure minimum operating voltage at the detector, depending on installed cable length.

Terminal Module Connections

Terminal Number	Marking	Connection	Description
1	24V	+VE Supply (18 - 32VDC)	Controller Connections
2	0V	-VE Supply (0VDC)	
3	4~20mA	Current Output Signal	
4	COM	Drain	MODBUS RTU. RS485 (Optional/ Pending)
5	TxD	MODBUS B (+)	
6	RxD	MODBUS A (-)	
7	RLY1/NC	Normally Closed	Programmable Relay 1 (Default A1)
8	RLY1/COM	Common	
9	RLY1/NO	Normally Open	
10	RLY2/NC	Normally Closed	Programmable Relay 2 (Default A2)
11	RLY2/COM	Common	
12	RLY2/NO	Normally Open	
13	RLY3/NC	Normally Closed	Programmable Relay 3 (Default Fault)
14	RLY3/COM	Common	
15	RLY3/NO	Normally Open	
16	+VE	+24VDC (Sensor Red Wire)	RTD Sensor Connections
17	-VE	4-20mA (Sensor Blue Wire)	
18	Unused	-	
Earth Point	Earth Symbol	Screen	

Note:
Terminal Blocks are plug/socket type and may be removed to ease wiring

Puck Rear View

Wiring Schematics

The Sensepoint XCD RTD transmitter may be wired in either current sink or current source configuration. These two options are offered to allow greater flexibility in the type of control system that it can be used with. Sink/source is selectable via the switch located on the back side of the display module; accessible by removing the display module during installation/commissioning.

Note:
Terminate cable screen at the detector or the controller, not both.

Installation and Technical Summary

Typical Cable Lengths

Typical Cable Data			Maximum Cable Length	
Cable Size (Cross Sectional Area)	Cable Resistance		Metres	Feet
	Ω/km	Ω/mi		
0.5mm ² (20AWG*)	36.8	59.2	353	1158
1.0mm ² (17AWG*)	19.5	31.4	666	2185
1.5mm ² (16AWG*)	12.7	20.4	1023	3356
2.0mm ² (14AWG*)	10.1	16.3	1287	4222
2.5mm ² (13AWG*)	8	12.9	1621	5318

Note:

Table given for guidance only. Users should calculate maximum distances using actual data for cable being used. Typical calculation assumes minimum guaranteed controller supply of 24VDC, minimum detector voltage of 18VDC and maximum power supply under full alarm. R_L (max) is 250ohms.

Sensepoint XCD RTD Transmitter

Use 3 wire 4-20mA gas transmitter for use with toxic and Oxygen gas sensors to protect plant and personnel from toxic and Oxygen gas hazards. Transmitter incorporates in-built alarm and fault relays, local tri-colour LCD display and is fully configurable via non-intrusive magnetic switch interface.

Electrical

Input Voltage Range	18 to 32VDC (24VDC nominal)
Max Power Consumption	5 Watts
Current Output	Sink or source
≥0.0<1.0mA	Fault
2.0mA or 4.0mA	Inhibit (during configuration/user settings)
4.0mA to 20.0mA	Normal gas measurement
22.0mA	Maximum over range
Terminals	18 x screw terminals suitable for wire diameter 0.5mm ² to 2.5mm ² (20AWG to 14AWG)
Relays	3 x 5A@250VAC. Selectable normally open or normally closed (switch) and energised de-energised (programmable) Alarm relays default normally open/de-energised. Fault relay default normally open/energised

Construction

Material	Transmitter Housing	Epoxy painted aluminium alloy LM25 or 316 stainless steel
	Sensepoint Toxic Sensor	PPS
	Weather Protection	Plastic
Weight (approx)	Aluminium Alloy LM25	2.0kg (4.4lbs)
	316 Stainless Steel	5.0kg (11lbs)
	Sensor	0.2kg (max- type dependant)
Mounting	Integral mounting plate with 4 x mounting holes suitable for M8 bolts Optional pipe mounting kit for horizontal or vertical pipe Ø1.5 to 3" (2" nominal)	
Entries	European ATEX/IECEx versions: 2 x M20 side entries and 1 x M25 bottom entry. Suitable blanking plug supplied for use if only 1 side entry used. Seal to maintain IP rating

IP Rating	Transmitter: IP66, Sensor: IP67 in accordance with EN60529:1992
Transmitter Certified Operating Range	-40°C to +65°C (-40°F to +149°F) Note: The detector display may become illegible at temperatures below -20°C, but the detector continues its gas monitoring function. The display is not damaged and recovers when the temperature rises back above -20°C. See Sensepoint Sensor Datasheet for further certified and operational temperature details.
Operating Humidity	Continuous 20-90%RH (non-condensing), Intermittent 0-99%RH (non-condensing)
Operating Pressure	90-110kPa
Storage Conditions	-25°C to +65°C (-13°F to 131°F)
Transmitter Ordering Information	
Standard Supply	Sensepoint XCD RTD is supplied complete with integral wall mounting plate, 2 x M20 side entries and 1 x M25 bottom entry. 1 x M20 plug, Allen key for locking screw, operating magnet, quick start guide and instruction manual CD. Default settings, ranges and calibrations are 100% tested at the factory. Each unit is supplied with a test certificate.
Shipping Details	Shipping carton dimensions: L312mm (12.3") x W223mm (8.8") x D110mm (4.3") Approximate weight: aluminium 2.5kg (5.5lbs), stainless steel 5.5kg (12.1lbs)

Our Product Range

Fixed Gas Monitoring

Honeywell Analytics offers a wide range of fixed gas detection solutions for a diverse array of industries and applications including: Commercial properties, industrial applications, semiconductor manufacturers, energy plants and petrochemical sites.

- » Detection of flammable, oxygen and toxic gases (including exotics)
- » Innovative use of 4 core sensing technologies – paper tape, electrochemical cell, catalytic bead and infrared
- » Capability to detect down to Parts Per Billion (ppb) or Percent by Volume (%v/v)
- » Cost effective regulatory compliance solutions

Portable Gas Monitoring

When it comes to personal protection from gas hazards, Honeywell Analytics has a wide range of reliable solutions ideally suited for use in confined or enclosed spaces.

These include:

- » Detection of flammable, oxygen and toxic gases
- » Single gas personal monitors – worn by the individual
- » Multi-gas portable gas monitors – used for confined space entry and regulatory compliance
- » Multi-gas transportable monitors – used for temporary protection of area during site construction and maintenance activities

Technical Services

At Honeywell Analytics, we believe in the value of great service and customer care. Our key commitment is providing complete and total customer satisfaction. Here are just a few of the services we can offer:

- » Full technical support
- » Expert team on hand to answer questions and queries
- » Fully equipped workshops to ensure quick turnaround on repairs
- » Comprehensive service engineer network
- » Training on product use and maintenance
- » Mobile calibration service
- » Customised programmes of preventative/corrective maintenance
- » Extended warranties on products
