

CROWCON
Detecting Gas *Saving Lives*

Sprint Pro

The All-In-One
Combustion Analyzer
for HVAC and
Plumbing Engineers

Sprint Pro

Don't purchase, store, charge, carry, calibrate and transport multiple devices - all critical test measurements can be performed with just one high performance, innovative solution - Sprint Pro.

Regardless of the set up, whether it's water heaters, combi boilers or furnaces, powered by gas, oil, coal, wood pellets in residential or commercial environments. The Sprint Pro is the only tool you will need.

Multi-tool functionality

Multiple flue, pressure, temperature, gas leak, and ambient air test functions, all from just one device

Professional grade water trap

Made from impact resistant polycarbonate and featuring heavy duty water and dust filters for total hydrophobic protection

Heavy duty design

Built from the same material as motorcycle crash helmets, it can withstand whatever is thrown at it in the challenging environments in which you work

Fast calibration

AutoCal jigs installed at service centers and wholesalers across the US allow for quick and easy calibration while you wait

Why you need the Sprint Pro

Many appliance manufacturers now mandate the use of a combustion analyzer when installing, and maintaining their latest generation of high efficiency products. Get the installation right first time and lower the risk of reputation damage or lost time on call backs with Sprint Pro.

Improve efficiency

No need to purchase, carry, store, charge, calibrate and transport multiple devices

Long lasting

Category leading high capacity, fast-charging battery, for improved longevity

Stay on the job

Fast start-up time and auto self-purging on shut-off which extends sensor life

Troubleshooting built in

Helps you perform tests quickly, safely and accurately

Damage protection

Spend more time working and less time waiting for repairs

Robust construction

Made from the same material as motorbike helmets

4-year warranty and 1st calibration included

Best in class support ensures peace of mind

“

The Crowcon Sprint pro is loaded with test features and works with many different types of fuels. The operation and function keys are easy to use and menu based. Overall I really like this tool and would definitely recommend it. ”

David Lottinville,
Santa Fe Air Conditioning and Refrigeration LLC
