Cole-Parmer® Stuart™ SCF4 Microcentrifuge

- Personal size for quick spin downs
- Safely spin samples with dual locking lid
- Quickly change rotors with quick-release adapter
- Built-in recessed rotor bowl
- BioCote® antimicrobial protection

Cole-Parmer® SCF4 Microcentrifuge

The Cole-Parmer™ Stuart SCF4 microcentrifuge provides high speed centrifugation with enhanced safety features. The high speed 8500 rpm and 3884 RCF rating allows users to spin samples rapidly or be used in applications where greater g-force is required.

Prevent accidental opening with the innovative dual safety locking lid. The unit will only spin when the lid is closed and will automatically shut off after 60 minutes of continuous use. The rubber-coated base allows for enhanced stability and reduced vibration.
